**Read the following passage carefully and answer the following questions:-**

Ants are the most interesting of all insects because they are so like human beings in many ways. They live in families, build their own houses, and have a king and a queen. Each ant has its own work to do and it does its work well. The very young ants who have just come out of their cocoons are generally the nurses. When they are older and their skins are harder, they are ready to leave the nest and do other kinds of work. Some of the ants hunt for food. Most other kinds of insects go about looking for food, but it is always for themselves alone. But the ants think of the nest, they bring food for the queen and other workers as well as for themselves.
