ASSIGNMENTS FOR CLASS - VII:

1. **ENGLISH:**
   - Collect 10 new words per day and find their meanings. Write them in a notebook for future use.

2. **MATHEMATICS:**
   - Make a model of classification of triangles with sides and angles in A4 sheets. Explain the properties of triangles.
   - Prepare a model with the ecofriendly items like straw (or) match sticks (or) cotton ear buds to illustrate the properties of angles made by a transversal on parallel lines.

3. **SOCIAL SCIENCE:**
   - Write up on steps taken by the State and Central Government for implementing “Swachh Bharath” (Clean India).
